

Granny Smith

Intense green with hardly any alternation

The intense green colouration is only one of the characteristics of this variety. Regular, medium to high yield and hardly any alternation are other advantages of this good pollinator. The fruit has a firm skin with light lenticels. It is very juicy with a high acid content.

Origin

Coincidental seedling from Australia, found by T. Smith in 1868

Tree

Medium growth

Pollinators: Golden, Jonathan, Red Delicious, Idared

Harvest

Two weeks after Golden Delicious

Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1991**.
