

# King Fuji Grofn Standard

## The colour highlight

This new bright red, high coloured blush Fuji clone is also suitable for cultivation in weak colour layers. Its early colouring makes the fruits resistant to sunburn.

### Origin

Branch mutation from the virus-free Fuji KIKU8 Brak

### Harvest

Mid-October

## Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1991**.

Our production site in Roverchiara, Verona/Italy comprises **more than 200 ha**, providing us with a yearly production of **about 2 million apple trees**. Thanks to our many years' experience, our competent staff and state-of-the-art technology, you will receive **high quality saplings** from current varieties and clones.

In addition to comprehensive advice, our service includes **prompt processing** of your order as well as **punctual delivery**.
