

Redlove

Redlove®

The apple with red flesh

Redlove is the brand of club varieties with red flesh that has a unique taste. Its high yield and scab-resistance result in profitable production. The red flesh enables a clear distinction from the known range, securing a premium position in the market.

Scab-resistant

Red fleshed variety

Origin

Cultivation based on crossing and selection by Markus Kobelt (Switzerland)

Licence: Fruture GmbH and Lubera AG, Switzerland

Tree

Red leaves, scab-resistant, medium early pink blossom

Harvest

Early varieties from mid-August, storage varieties until end of September

Comment: Owing to the central marketing of the club variety, we can only deliver to customers who are members of a producer organisation that has signed a contract with the variety owners (Fruture and Lubera).

Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1991**.
