

# Gala Schniga SchniCo red

SCHNICOred

## Intense, dark red colouration

Intense, dark red, non-glossy colouration covering the entire surface. The fruit has a medium, conical size. It gains colour very early and is therefore particularly suitable for areas with little colouration.

### Origin

Bud mutation from Gala Schniga Schnitzer, found in Nals (South Tyrol).

**Licence:** Schniga GmbH

### Tree

Medium growth, high yield  
Pollinators: Fuji, Golden Delicious  
Granny Smith, Red Delicious,  
Evereste, Golden Gem

### Harvest

End of August

## Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1988**.

Our production site in Roverchiara, Verona/Italy comprises **more than 200 ha**, providing us with a yearly production of **about 2 million apple trees**. Thanks to our many years' experience, our competent staff and state-of-the-art technology, you will receive **high quality saplings** from current varieties and clones.

In addition to comprehensive advice, our service includes **prompt processing** of your order as well as **punctual delivery**.
