

# Galant Lumaga

Scab-resistant

## Robust against scabs

Galant is a scab-resistant variety with sweet and very firm flesh. It has 50-80% red/pink colouration with some stripes on a greenish/yellow base colour, and pronounced lenticels. The fruit has a medium size and is slightly elongated.

### Origin

Cross between Resi and Delbard Jubilee (Switzerland)

**Licence:** Fruture GmbH

### Tree

Low growth, high yield

### Harvest

Mid-September, relatively long harvesting period (late harvest for quick marketing)
