

Morgenduft Dallago

Vivid dark red stripes

The apples of this Morgenduft clone have vivid, dark red colouration and a green/yellow base colour. The striped fruit with large, light lenticells and a thick, smooth skin is juicy and a little sour.

Origin

Mutation from Morgenduft, found in Leifers (South Tyrol) around 1970

Tree

Medium to strong growth

Harvest

Mid-October

Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1988**.

Our production site in Roverchiara, Verona/Italy comprises **more than 200 ha**, providing us with a yearly production of **about 2 million apple trees**. Thanks to our many years' experience, our competent staff and state-of-the-art technology, you will receive **high quality saplings** from current varieties and clones.

In addition to comprehensive advice, our service includes **prompt processing** of your order as well as **punctual delivery**.
