

Pinova

Strong against scab and frost

It has remarkably low susceptibility to scabs as well as winter and late frost. Very high and consistent yield. This medium-sized fruit has a green/yellow base colour, its colouration is vermillion to orange/red, striped and covers about 75% of the surface. Its flesh is very firm and juicy.

Origin

Cross between Clivia and Golden Delicious, discovered in Dresden-Pillnitz (Germany)

Tree

Medium to strong growth, excellent pollinator

Harvest

Just before Golden Delicious

Our Tree - Your Success

The Gruber Genetti Nursery has been the epitome of **supremely high quality** apple tree propagation **since 1988**.

Our production site in Roverchiara, Verona/Italy comprises **more than 200 ha**, providing us with a yearly production of **about 2 million apple trees**.
